

2024 Brian D. Novis Research Award

BRIAN D. NOVIS **RESEARCH GRANT** **JUNIOR GRANT APPLICATION**

Provided by private donations from individuals

The International Myeloma Foundation (IMF) funds several research grants including the Brian D. Novis Research Award. These grants are provided through donations from private individuals, and are presented annually by the International Myeloma Foundation. These awards go to researchers doing work in the field of multiple myeloma and related disorders including smoldering myeloma, MGUS (monoclonal gammopathy of undetermined significance) as well as immunoglobulin derived amyloidosis. This year's awards will be \$50,000 each. The Brian D. Novis Award honors the IMF's founder Brian Novis, who died of multiple myeloma in July of 1992. The IMF is a non-profit organization whose mission is to improve the quality of life for myeloma patients while working toward prevention and a cure.

International Myeloma Foundation 2024 Junior Research Award Application Instructions

QUALIFICATIONS

The qualifications for a candidate for the Brian D. Novis Research Award include the following:

- Completed postdoctoral studies or clinical fellowships no later than October 1 of the application year.
- Ability to devote a minimum of 50% of his or her time to the research project during the Award year.
- Ability to provide a completed application with evidence of a meritorious research project.
- NIH, other foundations or similar funding agencies.
- Must complete and return application package to the IMF no later than **Monday, August 28, 2023**.

APPLICATION

A complete application should be submitted to the IMF directly by the candidate and must include the following:

1. Original application along with one (1) printed copy. Ideally, we welcome a completed application saved as a PDF file and sent electronically by email to lpaik@myeloma.org, in addition to the original application and one (1) copy mailed to the address provided on or before August 28, 2023. Please note on the application that this is for the **2024 Brian D. Novis JUNIOR Research Grant**.
2. Curriculum vitae, including complete bibliography.
3. The abstract (scientific and lay summary) of the proposed research.
4. Summary (not to exceed five pages, excluding references, figures and tables) of the research project, outlining (in this order):
 - a. Specific aims
 - b. Methods, novelty and significance
 - c. Facilities available
 - d. Previous experience of the researcher and preliminary work accomplished, if applicable
5. Letters of support or commitment from collaborators needed to complete the proposed project (if applicable).
6. A clear and explicit outline detailing the facilities to be used and exact space and equipment requirements.
7. Any institutional clearances required to conduct the research should be appended to this section. (Institutional overhead must not exceed 10% of the grant award or \$5,000.)
8. Biohazards statement, if applicable. An institutional statement and assurances regarding potential biohazards and safeguards must be included.
9. Laboratory Animals statement, if applicable. For projects that involve laboratory animals, the Institutional Animal Care and Use Committee (IACUC) Approval Date and Animal Welfare Assurance

Number must be given.

10. Publications. One (1) set of the applicant's publications that are relevant to the proposed project should be included. Attach one (1) set to the original application and one (1) set to the copy.
11. Statement giving details of any additional funding for this research. The IMF reserves the right to decline or revoke funding if simultaneous funding has been awarded from another source. At the time of submission, applicants must disclose whether this project has also been submitted to other institutions for funding.
12. Letter of recommendation:
 - a. Recommendation by a department head/mentor or senior advisor at your institution, critically evaluating the merits of the proposed research and the candidate's qualification and ability to conduct the research.
 - b. If nominee is not affiliated with the academic institution that will be the site of the proposed research, a letter from a department chairperson or dean verifying the candidate's affiliation with the institution and availability of additional resources for the research.
13. Completed Application Checklist (included in this document) for the original application and copy.

FORMAT

Application materials must be submitted in the order listed in the Application section. Pages should be numbered and submitted in page order, beginning with Page 1 of the Application Form. Applications must be printed or typed on one side only of each page. Page lengths are based on standard one-inch margins, single-spaced, with a type size no smaller than 10 points in a standard font. No unsolicited documentation or additional letters of recommendation will be considered. Any proposals arranged to comply with other funding entities' guidelines must be redone to meet the specification outlined herein.

DELIVERY GUIDELINES

Applications may be delivered to the IMF by U.S. mail, express delivery, or courier. No part of the application may be submitted by facsimile transmission (FAX). To ensure delivery, candidates may wish to send applications via a method that requires signature (i.e. Federal Express or registered mail, return receipt requested.)

DEADLINE/SUBMISSION ADDRESS

Complete applications must be received in the IMF office by **5 PM on Monday, August 28, 2023.**

Lisa Paik, Executive Vice President, Research Operations

4400 Coldwater Canyon Avenue, Suite 300

Studio City, CA 91604

Phone: 1 (818) 487-7455

Email: lpaik@myeloma.org

CONFIRMATION

You will receive a confirmation email from the IMF upon receipt of your application.

SELECTION

The selection of the recipient will be made by an Award Committee of the Scientific Advisory Board of the IMF, consisting of experts in the field of multiple myeloma. Candidates are strictly prohibited from contacting members of the Award Committee about the status of their application; any violation of the regulation will lead to the automatic disqualification of the application.

Selection and Considerations

The Award Committee will consider most favorably those proposals that provide evidence of an applicant's research initiative and creativity. The Committee will also weigh the previous accomplishments of the applicant, the probability of meaningful results from the proposed research, and the likely contribution of the research to the advancement of our knowledge of myeloma etiology, diagnosis, treatment, or prevention.

Selection Notification

All candidates will receive notification from the IMF office of the final selection of a recipient by the IMF via email or mail.

AWARD CONDITIONS AND REPORTING

The Award is provided to support the recipient's research contingent upon signature of a letter of agreement between the International Myeloma Foundation (IMF) and the sponsoring institution.

The monetary Award is provided to the recipient's sponsoring institution for the direct support of the recipient's work during the Award year, which will begin on January 1, 2024. The Award may be used for laboratory supplies for the research proposed.

The first installment of the award (1/3 of \$50,000) will be dispersed in January 2024. The recipient is required to submit a six (6) month progress report – due July 15, 2024. The second installment of the award will be dispersed after the progress report has been received and reviewed by the Chairman of the IMF Scientific Advisory Board. The third, and final installment, will be dispersed after receipt of final reporting. At the conclusion of the award year, the recipient is required to submit a brief written summary of the research conducted, as well as, a detailed account of the use of Award funds. The IMF should be acknowledged in support of the research funded. Send your reports to:

Dr. Vincent Rajkumar
Mayo Clinic
200 First St SW
Stabile 628
Rochester, MN 55905
Rajkumar.Vincent@mayo.edu

Lisa Paik
International Myeloma Foundation
4400 Coldwater Canyon Avenue, Suite 300
Studio City, CA 91604
lpaik@myeloma.org

The recipient will be encouraged to submit the results of the research for presentation at a major scientific meeting and/or submit a manuscript for publication in a major scientific journal as soon as meaningful results are obtained. If the opportunity allows recipients will be invited to participate in IMF sponsored scientific patient and other seminars/meetings.

If the recipient receives a commitment for financial support for the proposed project from more than one funding entity, the applicant must inform the IMF immediately concerning any potential conflict and in no instance can accept funding from more than one entity for the same project.

JUNIOR GRANT APPLICATION

Applicant Name

Page _____ of _____

**International Myeloma Foundation
2024 Junior Research Award Application Form**

1. Project Title: _____

2. Applicant: _____ Degrees: _____

Institution: _____

Department: _____

Address: _____

City: _____ State: _____ Zip: _____

Country: _____

Fax: _____ E-Mail: _____

3. Total Amount Requested: Year 1: _____

4. We, the undersigned, have reviewed this application for an International Myeloma Foundation (IMF) Award and are familiar with the policies, terms, and conditions of the IMF concerning this research support and do hereby accept the obligation to comply with all such policies, terms and conditions.

Please type the following:

5. Applicant	Signature	Date

CERTIFICATION

I certify that, to the best of my knowledge, all of the information contained in this application form is true and the research as proposed to be conducted by the applicant would comply with all of the standards of the sponsoring institution.

APPLICANT _____

Signature

Date

Applicant Name

Page ____ of ____

Curriculum vitae, including complete bibliography. (attach and number pages as needed)

Abstract-Scientific: Briefly describe your proposed project in 100 words or less using technical language.

Abstract-Lay: Briefly describe your proposed project in 100 words or less using non-technical language.

Description of the research project. (This must not exceed **five pages**, excluding references, figures, and tables).

- a. Specific aims
- b. Methods, novelty and significance
- c. Facilities available
- d. Previous experience of the researcher and preliminary work accomplished, if applicable

Applicant Name

Page ____ of ____

Letters of support or commitment from collaborators needed to complete the proposed project (if applicable). (attach and number pages as needed)

A clear and explicit outline detailing the facilities to be used and the exact space and equipment requirements.

2024 Brian D. Novis Research Award Junior Grant
Application Checklist

Two (2) complete copies (one original, one photocopy) of the application are required. Use the following checklist to ensure all required materials are submitted and in the proper order.

COMPLETED & INCLUDED	ITEM
1.	Application provided by the IMF.
2.	Curriculum vitae, including bibliography.
3.	The abstract (scientific and lay summary) of the proposed research.
4.	Summary (not to exceed five pages) outlining the research project.
5.	Letters of support or commitment from collaborators needed to complete the proposed project, if applicable.
6.	Clear and explicit outline detailing the facilities to be used and exact space and equipment requirements.
7.	Any institutional clearances required to conduct the research should be appended to this section. Institutional overhead must not exceed 10% of the grant award. (Do not exceed \$5,000 with your institutional overhead)
8.	Biohazards statement, if applicable.
9.	Laboratory Animals statement, if applicable.
10.	Publications. One (1) set of the applicant's publications that are relevant to the proposed project should be included. Attach one (1) set to the original application and one (1) set to the copy of the application.
11.	Statement giving details on any other funding for the research.
12.	Letter of recommendation.
13.	Application Checklist.

Send the original + one photocopy to the International Myeloma Foundation:

Lisa Paik, Executive Vice President, Research Operations
